

Core competence

- Data science, Machine Learning & Deep Learning Modeling services
- End-to-end AI Applications development capabilities
 - ML Application development
 - Computer Vision Application development
 - NLP Application Development

Pi Tech Services

- [Data-labeling services](#)
- [Custom AI Application](#)
- [Chatbot services](#)
- ML Model development, optimization & deployment services
- Micro-architecture services
- Cloud deployment services
- [AI Staffing Services](#)

Why Pi Tech?

- Cost-Effective (Reduce cost by 2x, Zero start-up cost)
- A dedicated & highly talented Data Science team comprising of 20+ members
- State-of-the art AI Infrastructure
- Bright delivery record as per the industry standards
- Leadership team holds over 25+ years of industry experience in total

AI SERVICES IN DENTISTRY

ML SERVICES WE PROVIDE

- Data pre-processing & Labeling services using [ADVIT](#)
 - Data-labeling, data upscaling & data augmentation
 - Expert Dentists as annotators with minimum 15 years of clinical practices
 - Data pre-processing
 - Real-time statistical distribution of the data
 - Automated data labelling using Deep Learning models
 - Data mapping tool for ML/DL data preparation
 - Data security & Encoding
- Data Licensing services
 - Dental Radiographs / X-Ray licensing
 - CBCT data licensing
 - OPG data licensing
 - Annotated data licensing
- Computer Vision & ML Model Licensing Services
 - Pathology Detection
 - Pathology Classification & Segmentation
 - Oral disease detection & screening
- Application Services
 - ML model deployment on the edge devices
 - Continuous model evaluation
 - Result analysis and ML model retraining
 - Easy deployment using Restful APIs
 - On-prem & Cloud deployment
 - Data Security & Privacy
 - Continuous support

ADVIT FEATURES

- Hierarchical Attribute Tagging
- Automated data labeling using Deep Learning models
- Licensable & self-hosted data labeling tool
- Data Security
 - No need to share data on cloud
